

# Gemstone Birds

~ Medium Size ~

**THIS POPULAR SIZED** Gemstone Bird averages 5.5—6.5 inches high (14-16.5 cm), and 1.5—2.5 lbs. in weight (550-1100 gm). They come in a variety of naturally colored semi-precious stones, including quartz crystal, rose quartz, blue sodalite, orange, blue, and yellow calcite, green serpentinite, white dolomite, black or brown onyx, jasper, amethyst, etc. All are expertly carved and joined together by skilled Brazilian artists. The bases are beautiful Brazilian amethyst.
