

# Gemstone Birds ~ Smaller Size ~

**THIS SIZE GEMSTONE BIRD** averages 2.75-3.5 inches high (7-9 cm). They come in a variety of naturally colored semi-precious stones, including quartz crystal, rose quartz, blue sodalite, yellow, orange, and blue calcite, green serpentine, dolomite, onyx, jasper, amethyst, etc. All are expertly carved and joined together by skilled Brazilian artisans. The bases are Brazilian amethyst.

(The last photo shows a 9 volt battery for size comparison.)
