Amethyst

Citrine  
(with natural crystal "points")

Blue Agate

Rose Quartz

(Bright, rough tumbled pieces.)

**A unique, affordable and popular line of jewelry...** Semi-precious stones delicately hang from tiny pieces of bamboo (fine wire runs through the bamboo). The hard, clay-like substance is a resin in which the stones are set and the artisan places his designs. The necklace cord is woven from a Brazilian fibrous reed. Great variety of designs, no two necklaces alike!

Aventurine

(a.k.a. Green Quartz)

Hematite

Agate, natural

# Brazilian Natural Jewelry

## Chakra Necklaces

*Beautiful Quartz Crystal Points with Seven Tumbled Chakra Stones*

Each necklace holds unique designs around a beautiful Brazilian quartz crystal point (natural termination). Dangling beneath are the following seven chakra stones: hematite, agate (naturally reddish), citrine, rose quartz, blue sodalite, amethyst and quartz crystal.

Also available with tumbled quartz as main stone. For sets, recommended earrings are quartz crystal and amethyst.

## Crystal Hair Sticks

These unique hair sticks are made of a Brazilian hardwood, and are crowned with beautiful crystal terminations, aka points. Also available in citrine points and tumbled amethyst.

## Bold Necklaces

This is a line popular with both guys and gals. One large gemstone is set into unique designs in the clay-like resin. Necklace cord is leather.

Blue Agate in Bold style. Unique designs in each piece. Leather cord.
